

## Lab #10: Submission details

~ Library: relational database management system ~

### Due date

- **Due date:** The lab is due by the **end of your lab period of week #13**.  
This means that we expect that you have completed the lab and submitted it to Brightspace according to the submission instructions detailed below.
- **Extended due date:** We accept lab submissions without penalty until **Sunday of week #13 @ midnight**. We consider this an **extension** to the due date.
- **After the extended due date the assigned grade is zero.** You may submit an incomplete lab for partial marks. After the extended due date no extension will be given regardless of circumstances.

### Submission instructions

**Any submission that does not follow the submission instructions below will NOT be marked and will result in a grade of zero.**

- Submission file formats
  - **One PDF** file with filename: lab10\_dbsql\_<networkID>.pdf that includes, in that order:
    - Screenshot #1: SQL syntax of *query #9*, as recorded in a text file
      - The font type must be “Courier New”.
      - Follow the spacing exactly as presented in the lab.
      - Write SQL keywords in all upper case and values in all lower case.
    - Screenshot #2: SQL syntax of *query #14*, as recorded in a text file
      - The font type must be “Courier New”.
      - Follow the spacing exactly as presented in this lab.
      - Write SQL keywords in all upper case and values in all lower case.
    - Screenshot #3: output of *query #14*
  - **No** ZIP files
  - **No** cover page
- Additional submission requirements
  - *Note:* Your lab professor may have additional submission requirements.
- Submission location: In Brightspace of your CST8245 course theory section under:
  - “Assignments”, named “**Lab10**”.
  - “Quizzes”, named “**Postlab #10 quiz**”

### Submission checklist

- Only submit your own work. What is considered plagiarism:
  - any expression(s) used but not taught in the course unless you can demonstrate that: 1. you understand it, 2. you have a good reason to use it, 3. and you include the source as a comment in your code
  - any set of instructions not followed as described
  - any code copied from another source
- You read & followed the submission instructions. Make sure that you submit:
  - the completed lab
  - in the right submission & file format
  - in the right course section
  - in the right course
- You read the marking guide & verified that your code meets the requirements.

### **Marking guide**

The lab is worth 7 marks of your total course mark.

**Lab 10.1:** 5 marks towards final grade

- [2] screenshot #1: SQL syntax of query #9
  - Use 'Courier New' for the font.
  - Follow the spacing exactly as presented in this lab.
  - Write SQL keywords in all upper case and values in all lower case.
- [3] screenshot #2: SQL syntax of query #14
  - Use 'Courier New' for the font.
  - Follow the spacing exactly as presented in this lab.
  - Write SQL keywords in all upper case and values in all lower case.
- Screenshot #3: SQL query #14 output

**Postlab #10 quiz, database query statements:** 2 marks towards final grade

***FYI: Brightspace feedback rubric for project grading***

*Note:* Subject to change

**Total: .**

[2] Query #9 SQL statement (readability, correctness): .

[3] Query #14 SQL statement (readability, correctness, output): .

Warning:
